

Company Background:

Symmetry Investments LP is an investment management company with approximately US\$3.5 billion in assets under management as of 1 April 2017. We have been in business since 2014 after successfully spinning off from a major New York-based hedge fund. The investment team primarily invests in a diversified set of relative-value and macro strategies in both developed and emerging markets. Symmetry has a team of around 80 people split between its headquarters in Hong Kong and an affiliated London office.
