For the Platinum Jubilee, a “70th Anniversary Alumni Fund” has been established to benefit the development of science students. The Fund provides financial support to undergraduate students, enabling them to participate in exchange programmes and various learning opportunities outside the classroom under the new curriculum, which calls for broader learning experiences.

The target of the fund is HK$7 million. It is an endowment fund and donations received from HKU alumni will be eligible for dollar-for-dollar matching for the University under the Stanley Ho Alumni Challenge.
